- Mobile Proposals are saved in COBRA's Document Center.
- Pictures can be taken of current customer configurations and future changes for customer to view and agree upon.
- Select desired Payment Terms for customer.
- Legal Notice ensures you're covered!

COBRA Mobile Solutions – Choose the ones that meet your needs!

Mobile Field Sheets (MFS) – Working smarter in the field & in the office

Tech friendly Mobile Field Sheet includes - customized Material Field Sheet, work order customer history, labor hours, 'voice to text' job notes, customer signature capture and job photos. 'Tally' Button summarizes materials & qty's field tech records, so they won't forget items. MFS is used for job costing, change orders, purchases, quotes and collecting on site. One click sends all job data from field, back to COBRA for seamless processing.

Mobile Time Sheets (MTS) – Enhanced Worker/Crew Time Tracking

Mobile Time sheets make it easy for field workers to enter their time, project phase and job notes. Each supervisor can review and edit individual or crew time sheets prior to clicking 'approved' which sends the information directly into COBRA. In the office, job hours and payroll hours are ready for processing, saving hours of data entry time.

Mobile Purchase Orders (MPO) – 'Notification alert' tells you when your materials are in

MPO solves the age old problem of tracking packing slips by synching up the on-site delivered materials with COBRA's job cost. Select 'all items fully receipted', or edit any items that don't match up with the packing slip before sending back to COBRA. MPO also works great for tracking unused and returned items.

Mobile Inventory Count Sheets (MICS) – The easy way to record inventory counts into COBRA

Use the MICS to reconcile any of your inventories – main warehouse, jobs, trucks and transfers between inventories. Simply fill out a MIC Sheet and send it in to COBRA for processing. MICS keeps your inventory(s) up to date so you can have an accurate Inventory \$ amount.

Mobile Custom Forms (MCF) - Complying with your government agencies

Do you have inspection, safety or other forms that need to be submitted to a government agency? Now you can fill the form out on your tablet and submit it directly back to COBRA. No more late or lost paperwork. Each form is stored in Doc Center, ready to be emailed to your agency. Contact us about creating your Custom Forms.

Mobile Google Calendar (MGC) – Scheduling in 'Real Time'

Company calendar displays all workers, jobs and dates on one calendar. Use drag and drop to change worker/job schedules. Updated schedules can be viewed immediately by Workers in the field using phones or tablets. Simple one click shows Work Order info; including customer/job address, map directions, job start/end date, customer history.
