

COBRA MOBILE FORMS

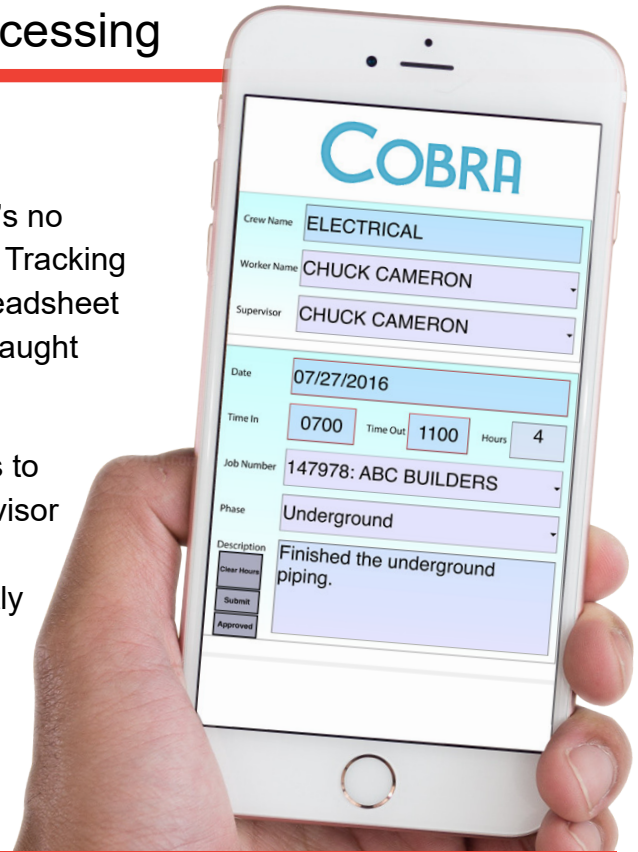

Eliminating the High Cost of Paper Processing

Tracking workers, crews and jobs in real time.

With different workers handling multiple phases on a job it's no wonder that 90% of cost overruns are due to labor issues. Tracking hours and manually recording the job information to a spreadsheet or your accounting program can be time consuming and fraught with errors.

COBRA Mobile Time Sheets make it easy for field workers to enter their time, project phase and job notes. Each supervisor can review and edit individual or crew time sheet's per job prior to clicking 'submit' which sends the information directly into COBRA.

In COBRA, the office manager reviews and edits any time card data, then clicks 'post' to update the jobs and payroll hours.

Cobra Mobile Time Sheets

Highlights of Mobile Time Sheet include:

- Works on an iPad, iPhone, Android tablet, Android phone.
- Work from anywhere, anytime.
- Field friendly, simple to use. Hours are sent in real time.
- Track Field Productivity daily.
- Field Notes can be typed or spoken using voice to text.
- Supervisor Hub - tracks worker/crew time sheets per project for each Supervisor. Field Workers can note corrections to their time sheet, but only Supervisors can edit and approve time sheets prior to submitting to COBRA.
- Eliminates duplicate entry of time card data – Saves time as no rekeying of information is required by the office manager. Simply review the data and if necessary, edit the time card data. Errors are minimized.
